# SLV Token Distribution Agreement

This SLV Distribution Agreement (the “Agreement”) contains the terms and conditions that govern this SLV Token distribution and is an agreement between SLVone (“SLVone”, “we”, “SLVone”, “us”, or “our”) and you or the entity you represent (“you”) (“donator”). This Agreement takes effect when you create an account or log in into SLV.one domain, if earlier, (ii) when we receive donation in full pursuant to Section 2 (the “Effective Date”). You represent to us that you are lawfully able to enter into contracts (e.g., you are not a minor). If you are entering into this Agreement for an entity, such as the company you work for, you represent to us that you have legal authority to bind that entity.

Link, or “SLV” is a digital crypto-currency token built in the Silverlink Network software, the participant must own SLV to enter, play, modify, and give a new order, among other actions inside the Silverlink Network.

## 1. General Conditions

**Terms.** You will adhere to all SLVone rules and regulations applicable to your donation for SLV, including the Policies and risks defined inside this agreement.

**Support to You.** We will provide web-based support only, including email, web forums, and knowledge base support. We will not provide telephone or live support. Our support email is [contact@SLV.one](mailto:contact@SLV.one) (but We DO NOT ask your ETH via any Email or Social Networks).

**Third Party Content.** Third Party Content may be made available directly to you by other companies or individuals under separate terms and conditions, including separate fees and charges. Because we may not have tested or screened the Third Party Content, your use of any Third Party Content is at your sole risk. We do not accept liability for any fees incurred or damages caused by your use of any Third Party Content. We do not guarantee the availability of any Third Party Content for any purpose. We do not guarantee the accuracy or precision of any information provided to us by any third party, including, without limitation, network information, pricing information or other statistical data. We may change, discontinue, or deprecate any of the Third Party Content.

## 2. Donation and Delivery of SLV

Ether (ETH) Donation. You agree to donate and we agree to provide SLV Token, on the terms set forth herein, resulting distribution. Your donation is final and non- refundable.

## 3. Security

**Your Security.** You will implement reasonable and appropriate measures designed to secure access to (i) any device associated with the email address associated with your account, (ii) private keys required to access any relevant Bitcoin address or SLV, and (iii) your passphrase, password and any other login or identifying credentials. In the event that you are no longer in possession of any device associated with your account or are not able to provide your login or identifying credentials, we may, in our sole discretion, and only if we are able, grant access to your account to any party providing additional credentials to us. We explicitly reserve the right to determine the additional credentials required, which may include, without limitation, a sworn, notarized statement of identity.

**Your Information.** We may use aggregate statistical information about your activity, including without limitation your activity on the SLVone Site and logins to various websites, for marketing or any other purpose in our sole discretion. However, we will not release your personally-identifying information to any third party without your consent, except as set forth herein.

#### **4. Your Responsibilities.**

**Security and Backup.** You are responsible for properly configuring any software in connection with your access to or use of SLV. SLVone log-in credentials are for your internal use only and you may not sell, transfer or sublicense them to any other entity or person, except that you may disclose your credentials to your agents and subcontractors or employees performing work on your behalf.

**End User Violations.** You will be deemed to have taken any action that you permit, assist or facilitate any person or entity to take related to this Agreement. You are responsible for End Users' donation and use of SLV. You will ensure that all End Users comply with your obligations under this Agreement and that the terms of your agreement with each End User are consistent with this Agreement.

**End User Support.** You are responsible for providing customer service (if any) to End Users. We do not provide any support or services to End Users unless we have a separate agreement with you or an End User obligating us to provide support or services.

**Modifications to the Agreement.** We may modify this Agreement (including any Policies) at any time and without previous notice.

#### **5. Termination.**

The term of this Agreement will commence on the Effective Date and will continue until terminated in accordance with this Agreement.

#### **6. Risk disclosure**

**Risks:** you understand that SLV, blockchain technology, Ethereum platform, SLV and decentralized hosting platforms are new and untested technologies outside of SLVone control and adverse changes in market forces or technology, broadly construed, will excuse SLVone performance under this agreement. In particular, and in addition to the terms of this document, you assume all risk of loss resulting from, concerning or associated with other risks explained here.

**SLV is not an investment.** There is no guarantee – indeed there is no reason to believe – that the SLV you received will increase in value. It may – and probably will at some point – decrease in value.

**SLV is not evidence of ownership or right to control.** Controlling SLV does not grant its controller ownership or equity in SLVone Company. SLV does not grant any right to participate in the control the direction or decision-making or SLVone foundation, except if we hereby state that.

**Risks Associated with the protocol.** SLV and the Silverlink Network are based upon the Ethereum protocol. As such, any malfunction, unintended function or unexpected functioning of the Ethereum protocol may cause the Silverlink Network or SLV to malfunction or function in an unexpected or unintended manner. SLV, the native unit of account of the Silverlink Network may itself lose value in ways similar to Bitcoin, and also other ways.

**Risks Associated with Donator Credentials.** Any third party that gains access to the Donator login credentials or private keys may be able to dispose of the Donator SLV. To minimize this risk, the Donator should guard against unauthorized access to their electronic devices.

**Risk of Unfavorable Regulatory Action in One or More Jurisdictions.** Blockchain technologies have been the subject of scrutiny by various regulatory bodies around the world. The functioning of the Silverlink Network and SLV could be impacted by one or more regulatory inquiries or actions, including but not limited to restrictions on the use or possession of digital currencies and tokens like SLV, which could impede or limit the development of the Silverlink Network.

**Risk that the Silverlink Network, As Developed, Will Not Meet the Expectations of Donator.** The Silverlink Network is presently under development and may undergo significant changes before release. Any expectations regarding the form and functionality of SLV or the Silverlink Network held by the Donator may not be met upon release, for any number of reasons including a change in the design and implementation plans and execution of the Silverlink Network.

**Risk of Theft and Hacking.** Hackers or other groups or organizations may attempt to interfere with the Silverlink Network or the availability of SLV in any number of ways, including without limitation denial of service attacks, Sybil attacks, spoofing, smurfing, malware attacks, or consensus-based attacks.
